TOPICS OF INTEREST TO EVERY WOMAN

EDITED BY JULIA CHANDLER HANE

President of Bryn Mawr Talks Of Woman's Past and Future

President M. Carey Thomas, of Bryn Mawr College, was the principal speaker recently at the seventy-fifth anniversary of the founding of Mount Holyoke College. He took for his subject, "The Future of Woman's Higher Education," and pointed out the progress that has been made since the founding of Mount Holyoke College. He said in part: "For those of us who are here, it may express the point of view of this platform and say on the right side of fifty, and have spent more than a quarter of a century in educating women it is exciting to pause at some such milestone as this anniversary to look forward. It is only a small part of the way but the rest will be easier to traverse. Women's higher education, and indeed the whole woman's movement, has now been caught in the grip of a great social change and is being carried forward with restless force.

"We have indeed still far to go. Women have almost won the right to study what and where they please. They have to a large extent almost equal opportunities for study. They have not yet won the rewards of study. They are still shut out from the prizes to scholarship. Over one half of all women college graduates teach, one-third of all graduate students in the United States are women sitting themselves for higher teaching. Yet even in the lower public schools the most responsible and highly paid positions are still reserved for men and only in a few women's colleges may women compete with men for full professorships. In all other colleges and universities the number of women holding even subordinate teaching positions is jealously limited. Presidents of co-educational universities have sometimes told me that they would gladly advance women scholars were it not for the opposition of men teaching in the same department.

Many Handicaps.

"Even in a woman's college like Bryn Mawr there is a steady, although I believe almost unconscious pressure, exerted by some of the men on our faculty to prevent the appointment of women to vacant professorships. Men who have taught women at Bryn Mawr (and sometimes only women and never men) for as many as ten or fifteen years will say to me on acceptance of elsewhere, 'of course, my position can only be filled by a man. I do not know why it is, but my subject can be best taught by men.' This is a natural and inevitable result of all our past history. It is not fair to find fault with men. The life of the intellect and spirit has been lived only by men. The world of scholarship and research has been a man's world. Men mistrust women's ability to breathe in this keener air. And in a sense they are right. Very few women, or men, can maintain scholarly research and enthusiastic teaching throughout a lifetime without opportunity to compete for living salaries and honorable recognition. Colleges for women, few and poorly endowed as they are, offer the only rewards for women scholars.

"Women scholars have another and still more cruel handicap. They may have spent half a lifetime in fitting themselves for a scholar's work and then may be asked to choose between it and marriage. No one can estimate

TO-MORROW'S MENU, HOW TO PREPARE IT

Simple and Inexpensive Plans for a Day.

BREAKFAST.
Baked Potatoes with Cream.
Broiled Tomatoes.
Cakes.
LUNCHEON.
Kidney Beans, Relish.
Lettuce Sandwiches.
German Apple Pancakes.
Tea.
DINNER.
Clear Soup with Barley.
Lamb Chops, Broiled.
Sweet Potato Souffle.
Cabbage Mayonnaise.
Grape Tapioca.
Coffee.

Kidney bean relish—Let a cupful of kidney beans cook over night in plenty of cold water. Set to cook in fresh water, and let them simmer until nearly tender, letting the water evaporate. Chop a green pepper fine, and to it add the pulp scraped from an onion and two tablespoonsful of chopped parsley. Cook in two tablespoonsful of butter until yellow. Add salt and one cup of tomato puree, and when boiling stir in the beans. Cook until the tomato has evaporated and the beans are soft. Garnish with hard-boiled eggs cut in eighths.

German apple pancakes—One-half pound wheat flour, three eggs, one ounce potato starch, and a pinch of salt. Beat the eggs and mix thoroughly. Add gradually one-half pint of milk. Pour into a round tin about an inch and a half deep and bake in a hot oven for seven to ten minutes. Sprinkle sugar over the top when done and serve with slices of lemon.

Grape tapioca—Wash a cupful of tapioca, put into a double boiler with a quart of cold water and cook until the grains are soft. Strain this mixture of water, add a cup of grape jelly and mix until the jelly is dissolved. Turn into a dish to cool. Serve cold with sugar and cream.

SOUTH AMERICANS INSPECT FARMS

Commission from Uruguay Makes Study of American Agricultural Methods.

Hugo A. Surrao Canter, head of the commission sent to the United States by the government of Uruguay to make a study of American farms and farming methods, called at the State Department yesterday on his way to New York, whence he will return to Uruguay in a few days. He was accompanied by Hing V. Pena, secretary of the Uruguayan Legation.

Commissioner Surrao and his colleagues have about completed their investigation, which have occupied them for more than five months. The time was spent in traveling about the United States visiting farms, schools of agriculture, State and Federal departments of agriculture, and visits to the great packing houses and wheat handling establishments.

The commission divided into three sections. One made a study of the methods of the fruit growers and packers in California and the Northwest, and other studied the farms of the Middle West, with special reference to the cattle and sheep industries, while the third specialized on the dairies of the North and the corn belt.

Each section is to submit voluminous reports, which are to be embodied in the general report to be written by Commissioner Surrao. The reports, as a whole and in sections, will be largely distributed throughout Uruguay for the information and assistance of the Uruguayan planter and stock raiser. They will also form the basis of instruction to the Uruguayan agricultural schools.

In speaking of the meat production of Uruguay, Commissioner Surrao declared that the grass-fed cattle, sold on the basis of weight, and a pound in Montevideo, he pointed out, however, that the grass-fed cattle of Uruguay were much better than grass-fed cattle in the United States, because of the superiority of the South American grass.

SPEAK FOR SUFFRAGE

Large Crowds Listen to Orators at People's Forum.

A large and attentive crowd attended a meeting of the District Suffrage League at the People's Forum, Eighth Street and Pennsylvania Avenue last evening. The speakers were Attorney Bernstein, W. D. MacKenzie, and James Hugh Kealey, the latter having charge of the meeting.

Mr. Bernstein dwelt upon how one felt who tried to vote at home in this District without a vote, after being a voter in one of the States for many years. He expressed surprise that anybody making a home here should feel content, at the present conditions, but criminal to be silent and not seek a change.

Mr. Kealey said that conditions in the near East, in Turkey's European frontier, where war has just been declared, was not as vicious, as to political rights, as conditions in the District of Columbia, that the people of Bulgaria and her regular states engaged more privileges as citizens under the Moslem overlordship there, than the Washington resident did under the overlordship of a committee of Congress manipulated by the selfish influences of the few in this District.

The funeral of Mrs. Mary E. Whyte, a resident of Washington for eighty years, was held yesterday afternoon at her home, 71 Second Street Northwest. Mrs. Whyte leaves five sons and one daughter—Henry, Joseph, Frederick, William, and Edward Whyte, and Mrs. Katherine Ferguson. Rev. Donald C. MacLeod officiated. Interment was in Congressional Cemetery.

Arms Left Fortune.

The petition for the probate of the will of John T. Arms, late member of the firm of Arms & Drury, real estate dealer, which was filed yesterday in the Probate Court, shows that his estate is worth more than \$200,000, consisting of more than \$100,000 worth of realty in the District and that he was a very wealthy man. The District Judge and county clerk are said to have received the probate of the will.

PAID UP COPY AMERICAN STYLES

Robert Flynn Urges Women of Country to Wear Native Dress and Not Go to France.

"American styles for American women" is the subject of a letter recently written by Robert Flynn, president of the National Ladies' Tailors and Dressmakers' Association, to a friend in New York. Mr. Flynn, who has been working to advance the popularity of American-made goods for some time, says in the letter: "I hope to see the day when American producers of wearing apparel will walk up to the fact that our women visitors to Europe are copied by the French, German, Austrian, English, and in fact are the envy of the European sisters, who are all anxious to look 'American.'"

"The days of Barnum's saying, 'The American people want to be tumbled,' are over. To-day the best and most progressive students of industries are coming over from Europe to learn the American system of manufacturing and producing women's garments."

"The French no doubt, have ideas, they having at present better facilities to look up history for centuries back, and thus originate, but it is the American tailor and dressmaker who give the finish touches and make the garments wearable."

"When I purchased my collection of models last September, eight out of twelve were originated and made by an American woman's tailor now located in Paris."

"The tailor-made suit, now universally adopted by women, is of American origin; also the pleated skirt, the Peter Thompson suit, the shirtwaist, and short skirts."

Lead production in the United States last year reached 1,000,000 pounds, an increase of 6,000 pounds over 1911. Imports last year were 10,000,000 pounds, a decrease of 7,000,000 pounds.

TRIMMED HATS

Have You Seen These At \$7.50 The Latest Arrivals?

We are not going to give a description of these hats as one list of details sounds very like another, and it is all in the EFFECT, the shape, the new combinations, both of kinds of trimmings, of the unique and original colorings of colors, etc., that make these new models decidedly the very latest and smartest appearing of the \$7.50 hats we have shown this season.

UNTRIMMED FRENCH VELVETS, in all the new colors, and the greatest variety of new shapes. The colors are the new blues, new greens, tans, browns, and black. Beauty, Jace, \$1.50, \$1.75 and \$1.95.

THE BEAUTIFUL GEORGETTE BOUFE is gorgeous, exotic, and fairly glows in its rich colorings; large, open-hearted, and in all shades of rose, American Beauty, Jace, \$1.95.

Millinery Store—Second Floor.

STAMP SALE NETS \$87,550.

Canal Zone Government Turns in Revenue to Treasury.

The Canal Zone government turned into the United States Treasury yesterday a sum of \$87,550.17, received from the sale of stamps and post cards during the fiscal year ended June 1, 1912. This is an increase of \$1,000 over last year.

During the past year 145,532 registered letters were handled by the post office there. Forty-seven per cent of the registered mail was sent under official stamp; 42,832 registered letters were sent into foreign countries.

There were 27,500 money orders issued during the year, representing a value of \$4,915,077.25.

On February 1 last sixteen postal savings banks were established on Canal Zone, carrying total deposits of \$35,947. There were 2,402 depositors having open accounts, representing thirty different nationalities.

The total revenues collected during the year amounted to \$11,944.18 and the total amount of money handled was \$5,827,570.10, an increase of \$15,342.52.

Customs Receipts Doubled.

Total customs receipts of the Dominican Republic have more than doubled in the five years that the American receiver has been in force, according to figures received at the State Department yesterday from Receiver General Pujiam. Collections for the fiscal year ended July 31, 1912, amounted to \$3,685,779, which was more than \$250,000 in excess of the amount collected for the previous year.

Russia has undertaken to build a railway from Tashkent to connect with the Bagdad Railway, and thus, for the first time, give Persia communication by rail with the outer world.

A White Plum Pudding.

Beat to a cream a half-cup sugar, three-fourths cup butter, add four well beaten eggs, two cups milk, a pinch salt and a quart of flour mixed with one-half cup shredded coconut, one-half cup seeded raisins, one-half cup cranberries, one-half cup currants, and a teaspoonful vanilla. Just before putting in mold stir in two tablespoonsful of baking powder. Bake in double boiler ten minutes. Serve with cream or soft custard.

FRUIT PUDDING.

Soak half-pound prunes in quart of water overnight; then stew till tender. Remove the pits, add two-thirds cup sugar and three tablespoonsful cornstarch and cook in double boiler ten minutes. Serve cold with cream or soft custard.

Suet Pudding.

Two-thirds cup suet, one cup raisins, one cup currants, one cup crumbs (after being soaked), one egg, one cup milk, one teaspoon cinnamon, one-half teaspoon nutmeg, one-fourth cup molasses, one heaping teaspoon baking powder, four to make a stiff dough.

Paris pattern No. 1024. \$1.00

SAVES ELDERLY PEOPLE FROM KIDNEY AND BLADDER MISERIES

Sleep Disturbing Bladder Weaknesses, Backache, Stiff Joints and Rheumatic Pains Disappear After Few Doses Are Taken.

While people along in years are naturally more subject to weak kidneys, they can avoid the tortures of backache and rheumatism, and be saved the annoyance of getting up at night with disagreeable bladder disorders, for the new discovery, Croxone, quickly cures the most severe and obstinate cases.

Croxone quickly and permanently cures these conditions, because it removes the cause. It is the most wonderful remedy ever devised for ridding the system of acid. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. Plus tablets, and other medicines merely stimulate the kidneys, occasionally giving temporary relief. Croxone makes the kidneys filter the blood and sift out all the poisonous acids and waste matter that cause these troubles.

It seeks right in and cleans out the stopped-up, inactive, inactive bladder, the kidneys, the system, and the whole body.

every particle of uric acid and other poisonous impurities that lodge in the joints and muscles and cause rheumatism. It neutralizes the uric acid so no longer irritates the bladder, overcomes unnecessary breaking of sleep, and restores the kidneys and bladder to health and strength, permanently and positively curing such troubles.

It matters not how long you have suffered, how old you are, or what else you have used. The very principle of Croxone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it, and all your misery and suffering soon disappear. You can secure an original package of Croxone at trifling cost from any first-class druggist, such as O'Donnell's Drug Store, 247 F Street Northwest, who will promptly return the purchase price if it fails to cure you.
